Needs attention

+36 Data sources
We checked 900+ data sources in 40 countries

Purpose

Was the vehicle used as a taxi, rental, or other service vehicle? Note: such vehicles may be in worse condition than usual!

✓

No issues found

No records of vehicle being used in irregular manner

Here's what we checked:

- Taxi

✓ No record found

No evidence of being used as a taxi
- Transport

✓ No record found

No evidence of being used as a transport vehicle
- Rental

✓ No record found

No evidence of being used as a rental vehicle
- Police

✓ No record found

No evidence of being used by police
- Demo

✓ No record found

No evidence of being used as a demo vehicle
- Driving school vehicle

✓ No record found

No evidence of being used as a driving school vehicle

Theft

Is the vehicle currently marked as stolen? Was it stolen in the past? Has it been recovered?

✓

No issues found

We didn't find any records that the vehicle was stolen.

Note

Police database stolen vehicle check completed in 11 countries: +5

Here's what we checked:

- Currently wanted as stolen

✓ No record found
- Stolen in the past

✓ No record found

No past theft records found for this vehicle.

Police database stolen vehicle check completed in:

Slovakia Czechia Romania Italy Slovenia Hungary Sweden United States Lithuania Denmark Canada

Mileage

Are there signs of mileage rollbacks or discrepancies?

Note

- Last known mileage: 21,000 km
- Average mileage for similar models: 22,762 km
- 2 mileage records found

Odometer records

05/2022	14 km
06/2023	21,000 km

Legal status

Has the vehicle passed technical inspection? Was it marked as scrapped?

No issues found

No records about the legal status of this vehicle were found

Damage Groups

Exterior body parts

We grouped these damage assessment records together in this PDF report – they appear to describe the same event, as they share consistently similar dates, locations, and details. To view all available details and ensure you're seeing the most detailed and up-to-date information, please refer to the digital report on our website.

Disclaimer: Most damage entries are related to traffic accidents, but not exclusively. Some entries may end up on the report for different reasons, such as damage assessments, auctions, vehicle inspections, repairs and other similar events, actions or circumstances. Entries like these may indicate, for example, that the vehicle was inspected and assessed at an authorised service centre, or that repairs, warranty service, diagnostics, vehicle inspection or other similar services were performed. These vehicle inspections or assessments may be done due to damage caused during a traffic accident, but also for other reasons, such as legal requirements and/or processes, information published by the manufacturer, warranty or non-warranty repairs, correction of poorly performed repairs, or damage not related to traffic accidents (e.g. theft, mechanical damage, etc.). It is important to note that such entries do not necessarily indicate the consequences of a traffic accident – they may also be related to the use, maintenance or operation of the vehicle in accordance with the requirements and circumstances set by the manufacturer or third parties.

Damage Glossary

Assessment

Assessment is the process of evaluating the extent of damage to a vehicle. It involves inspecting the vehicle to determine what repairs are needed, estimating the costs, and deciding whether the vehicle is repairable or considered a total loss.

Estimated Repair Cost

Once an incident related to a vehicle is assessed, damage data providers calculate the repair cost and present it in the currency of the country where the damage was evaluated. Therefore, this may not align with your expectations. The reasons for this may include:

The country or state where damage to the vehicle was assessed may have higher/lower servicing costs compared to your country (spare part prices and labor prices differ between countries)

The cost is calculated for repairs at an official service station (which is typically on the expensive end)

Natural disasters

Has the vehicle's location been recorded in the area of a natural disaster?

No issues found

Vehicle's location was not recorded in the area of a natural disaster

Market value

How much was the vehicle sold for in the past? What is the price of vehicles of this year and model on average?

- Note**
- Average market price for such vehicle: €90,828
 - Be cautious of hidden issues if the vehicle was on sale for significantly less than the current price!

BMW M4 2022 market value today

Market value is determined by examining the price of a particular car model (manufactured in the same year) in the country where the report was generated. We analyze data from the last 6 months.

Specs & equipment

What specs and equipment are on record for this vehicle?

- Note**
- Check whether the specs and equipment of this vehicle match the facts given by the seller.
