Commercial use check

We checked if this vehicle was used for commercial purposes - like a taxi, rental, or another service vehicle. These vehicles often see heavier use, so it's worth looking closer for signs of wear.

✅ No issues found

No records of vehicle being used in irregular manner

Here's what we checked:

- Taxi ✓ No record found
- Transport ✓ No record found
- Rental ✓ No record found
- Police ✓ No record found
- Demo ✓ No record found
- Driving school vehicle ✓ No record found

Theft

We checked if the vehicle is currently listed as stolen, if it was ever reported stolen in the past, and whether it's been recovered.

✓ No issues found

We didn't find any records that the vehicle was stolen.

Summary

Police database stolen vehicle check completed in **6 countries**: 

Here's what we checked:

Is it currently wanted as stolen? No record found

Was it stolen in the past? No record found No past theft records found for this vehicle.

Police database stolen vehicle check completed in:

 Czechia  Slovenia  Hungary  Romania  Slovakia  Canada

Mileage

We checked if the mileage looks accurate or if it may have been tampered with.

Summary

- Last known mileage: 35,972 km
- Average mileage for similar models: 41,664 km
- 5 mileage records found

Odometer records

| | |
|---------|-----------|
| 01/2023 | 11 km |
| 08/2023 | 2,000 km |
| 04/2024 | 15,000 km |
| 10/2024 | 23,000 km |
| 09/2025 | 35,972 km |

Driving habits

| | | |
|-------------------|--|----------------|
| 01/2023 - 08/2023 | <input type="checkbox"/> Limited driving | 281 km/month |
| 08/2023 - 09/2025 | <input checked="" type="checkbox"/> Normal driving | 1,337 km/month |

Legal status check

We checked if the vehicle passed technical inspections and whether it was marked as scrapped.

✓ No issues found

No records about the legal status of this vehicle were found

Legal

Passed technical inspection (MOT)? No record found

Was it scrapped? No record found

Recommended service schedule

For full past and upcoming service details, view the digital report.

Summary

- Last scheduled maintenance was 15,972 km ago – check what maintenance may have been required
- Based on recorded mileage, the next recommended service is due in 4,028 km

Next recommended service at 40,000 km

What should be serviced:

Service time approx. 120 min

- Engine oil filter (Renew)
- Cabin filter, pollen (if fitted) (Renew)
- Cabin filter, odour (if fitted) (Renew)
- Central locking/alarm remote control batteries (Renew)
- Brake efficiency test (Carry out) +51 service items

Previous recommended service at 20,000 km

What should have been serviced:

Service time approx. 84 min

- Engine oil filter (Renew)
- Road wheels (Interchange)
- Cabin filter, pollen (if fitted) (Renew)
- Central locking/alarm remote control batteries (Renew)
- Brake efficiency test (Carry out) +35 service items

Disclaimer: Most damage entries are related to traffic accidents, but not exclusively. Some entries may end up on the report for different reasons, such as damage assessments, auctions, vehicle inspections, repairs and other similar events, actions or circumstances. Entries like these may indicate, for example, that the vehicle was inspected and assessed at an authorised service centre, or that repairs, warranty service, diagnostics, vehicle inspection or other similar services were performed. These vehicle inspections or assessments may be done due to damage caused during a traffic accident, but also for other reasons, such as legal requirements and/or processes, information published by the manufacturer, warranty or non-warranty repairs, correction of poorly performed repairs, or damage not related to traffic accidents (e.g. theft, mechanical damage, etc.). It is important to note that such entries do not necessarily indicate the consequences of a traffic accident – they may also be related to the use, maintenance or operation of the vehicle in accordance with the requirements and circumstances set by the manufacturer or third parties.

Damage Glossary

Assessment

Assessment is the process of evaluating the extent of damage to a vehicle. It involves inspecting the vehicle to determine what repairs are needed, estimating the costs, and deciding whether the vehicle is repairable or considered a total loss.

Damage

Damage refers to any physical harm or loss sustained by a vehicle, such as scratches, dents, or broken parts. It can result from accidents, weather, theft, or other incidents and may affect the vehicle's appearance or performance.

Past repair cost estimate

If the vehicle has reported damage, the past repair cost is estimated based on where the damage was assessed and is shown in that country's currency. This amount may differ from what you'd expect locally. Here's why: Repair prices vary between countries due to differences in labor rates and parts costs.

The estimate is based on work that is done at official service centers, which are typically more expensive than independent garages.

Natural disaster exposure

We checked if the vehicle was located in an area hit by a natural disaster at the time it happened.

No issues found

This vehicle's location was not recorded in the area of a natural disaster.

Market price

We checked how this vehicle's market price has changed over time, based on available historical data and price estimates.

The timeline shows a limited period and does not reflect the vehicle's full lifetime pricing.

Summary

- Last known selling price: €163,400
- Average market price for such vehicle: €173,585
- Be cautious of hidden issues if the vehicle was on sale for significantly less than the current price!

| Year | Market price | ↘ Lowest market value | ↗ Highest market value |
|-------------------------|--------------|-----------------------|------------------------|
| ● 2023 | €223,720 | €196,915 | €248,000 |
| 🟢 06/2023 Selling price | €259,500 | | |
| ● 2024 | €199,990 | €172,308 | €229,660 |
| ● 2025 | €179,000 | €153,124 | €207,153 |
| 🟢 09/2025 Selling price | €210,000 | | |
| 🟢 12/2025 Selling price | €163,400 | | |
| ● 2026 | €173,585 | €146,991 | €202,089 |
| ● 2027 | €163,715 | €138,633 | €190,598 |
| ● 2028 | €151,090 | €127,942 | €175,900 |
| ● 2029 | €141,990 | €120,236 | €165,306 |
| ● 2030 | €139,990 | €118,543 | €162,977 |
| ● 2031 | €106,450 | €90,141 | €123,930 |
| ● 2032 | €79,999 | €67,743 | €93,135 |
| ● 2033 | €79,990 | €67,735 | €93,125 |

Market price insights

Price trend forecast

This vehicle is expected to lose -54% of its market price over the next 7 years.

Note: Forecasts are based on current market trends and historical data. Actual resale value may change due to market shifts, condition, location, or other factors.

Emissions

We analysed how much CO₂ this car model typically produces and what taxes or fees may apply.

 **carVertical Insight**
This vehicle has high emissions. That could mean higher emission taxes. Check local regulations to avoid surprises.

Helpful tips after reading the report

Every tip you check off helps you avoid unwelcome surprises later. The more you check, the safer your car deal.

Do these checks before buying a car:

Get a professional inspection

An expert mechanic can spot hidden issues you might miss. Here's what to do next:

- Book a pre-purchase inspection at an independent or authorised service
- Ask the mechanic to check key systems: engine, brakes, suspension, electronics
- Request written notes or a report of any issues found

Ask for service records

Service records show how well the car has been looked after. Here's what to do next:

- Ask the seller for the car's service book or maintenance records
- Check for regular oil changes, filter replacements, and timing belt work
- Note any missing or overdue services

Check if the mileage matches

Make sure the mileage in this report matches the car's odometer readings. Here's what to do next:

- Check the odometer reading against the mileage in the report
- Watch for signs of tampering (worn pedals, suspicious dashboard fixes)
- Ask the seller about any differences

Take a real test drive

A proper test drive helps you spot problems with performance, handling, or comfort – you'll notice much more on the road than you will in the parking lot. Here's what to do next:

- Drive on different road types: highway, city traffic, and bumpy or uneven surfaces
- Listen for strange noises or vibrations
- Pay attention to handling and comfort

Compare with similar cars

Checking other listings helps you know if the asking price is fair – or worth negotiating. Here's what to do next:

- Search for similar cars online (same make, model, year, mileage)
- Compare asking prices
- Look at car condition and equipment
- Use this info to negotiate with the seller
