Occasional inaccuracies can occur, especially when checking older vehicles. Underground repair shops may illegally disguise vehicle defects or damages, not recording their existence anywhere. Sometimes, even vehicle VIN plates may be replaced. We have a variety of methods to detect even such crimes, but it's impossible to provide a 100% guarantee.

Helpful tips after reading the report

Every tip you check off helps you avoid unwelcome surprises later. The more you check, the safer your car deal.

Do these checks before buying a car:

Get a professional inspection

An expert mechanic can spot hidden issues you might miss. Here's what to do next:

Book a pre-purchase inspection at an independent or authorised service

Ask the mechanic to check key systems: engine, brakes, suspension, electronics

Request written notes or a report of any issues found

Ask for service records

Service records show how well the car has been looked after. Here's what to do next:

Ask the seller for the car's service book or maintenance records

Check for regular oil changes, filter replacements, and timing belt work

Note any missing or overdue services

Check if the mileage matches

Make sure the mileage in this report matches the car's odometer readings. Here's what to do next:

Check the odometer reading against the mileage in the report

Watch for signs of tampering (worn pedals, suspicious dashboard fixes)

Ask the seller about any differences

Take a real test drive

A proper test drive helps you spot problems with performance, handling, or comfort – you'll notice much more on the road than you will in the parking lot. Here's what to do next:

Drive on different road types: highway, city traffic, and bumpy or uneven surfaces

Listen for strange noises or vibrations

Pay attention to handling and comfort

Compare with similar cars

Checking other listings helps you know if the asking price is fair – or worth negotiating. Here's what to do next:

Search for similar cars online (same make, model, year, mileage)

Compare asking prices

Look at car condition and equipment

Use this info to negotiate with the seller
